Mission Statement

The *Home Furnishings Program* (HFP) is a registered non-profit organization that exists to recycle good quality donated furniture and household furnishings, free of cost, to low income Schenectady County residents in need due to transition from *emergency situations* such as fire/flood, domestic violence, prison/rehab/hospital/nursing home discharge, homelessness, disability and mental illness. Our Program Director receives client referrals from social services agencies, arranges truck runs to pick up and deliver large furniture items and schedules "Elsie's Room" appointments for client pick-up of small furnishings as needed.
